1. Introduction

The objective of this document is to provide the overview of all needed actions that have to be taken in case of:

- Initial configuration at the beginning of the XBID. In order to do it, follow the Annex 1 of this procedure.
- A change in the Reference Data in the SOB (“SOB Reference Data Module”).

Note: configuration of individual contact details in AlarmTilt is local responsibility.

Capitalized terms used in this document shall have the meaning set forth in Annex 1, unless if defined differently in this document. Any capitalized term which is not defined in Annex 1 is defined in the NEMO Change Control Procedure or in the technical specification documents and should be read together with these.

The need for a change will first be addressed, according to the NEMO Change Control Procedure, to the NEMO OPSCOM. The technical description on how to perform configurations is set forth in the user manual ([REDACTED]) and in the technical specification ([REDACTED]).

The following reference data can be created or modified in the SOB:

1.1. Purpose

Configuration and product setup performed in the SOB needs to be done in a coordinated way since these type of changes may affect all NEMOs and all changes to the central system creates a risk for the market. Need for change is in general triggered as a modification or notification according to the NEMO Change Control Procedure (XBID_NEMO_OTH_04). If the Request for change meets the requirements set forth by the NEMO Change Control Procedure and it is approved in the NEMO OPSCOM then this procedure together with the NEMO Change Control Procedure should be followed.

1.2. Governed / Regulated by

- All NEMO Intraday Operations Agreement (ANIDOA)

1.3. Tools and communication protocols

- XBID system reference and master data including CMM, SM and SOB
- NEMO's Pre-Coupling and Post-Coupling Modules (common and local)
- TSO Pre-Coupling and Post-Coupling Systems (common and local)

1.4. Associated procedures

- XBID_NEMO_OTH_04: Change Control Procedure
- XBID_NEMO_OTH_05: XBID NEMO Admins
