DECISIONS

NEMO GOVERNANCE

- NEMO Committee continued voicing NEMOs opinion regarding the proposed text of revised CACM and cooperated with their Member States, where requested.
- In order to simplify signature processes of NEMO-only contracts, NEMOs agreed to implement signature via Qualified Electronic Signature (QES).
- NEMOs continue active clarification with ACER regarding REMIT Implementation legislation and triggered discussion on potential future tender process on new RRM.
- NEMOs re-confirmed the mandate of Rafael Gómez-Elvira (OMIE), All NEMO Committee Chairman, for another year as well as confirmed mandates of Task Force Leaders.
 - Cosimo Campidoglio (GME) will continue as NEMO Chairman for SDAC topics for another year, while Ondrej Maca (OTE) will finish his role as NEMO Chairman for SIDC by the end of October 2026. He will be replaced by Pierre Milon (EPEX), both representatives have already triggered the knowledge transfer to ensure smooth transition of the role.

JOINT GOVERNANCE

- The NEMO vote on the proposed decisions within the agenda of the MCSC meetings was pre-aligned by the All NEMO Committee, which ensured the efficiency of the MCSC meetings.

METHODOLOGIES

- NEMO Committee decided on way forward regarding SDAC Product methodology and Algorithm methodology, taking into consideration outcomes of the public consultation. No updates of the SDAC Products methodology were proposed, and ACER has been informed accordingly. Updates of the Algorithm methodology were confirmed, and the updated document has been shared with ACER for their final decision.

BUDGET AND WORKPLAN FOR 2027

- NEMO Committee agreed on its Work program for 2027 and related Budget.
- The [Work program](#) was published on NEMO Committee website.
- NEMO Committee approved the Budget for 2027 as follows:
 - overall ANCA Budget - 1 505 449,43 EUR,
 - NEMO-only common cost for DA topics - 1 144 448,23 EUR and
 - NEMO-only common cost for ID topics - 1 465 501,88 EUR

SIGNIFICANT UPDATES IN DAY-AHEAD OPERATION

- NEMOs and TSOs are actively cooperating with ACER in order to minimise impacts of potential decoupling events and are discussing improvements of the system. NEMOs prepared first Operational Timings report. In this context, a reply to the fallback model proposed by ACER was prepared and submitted.
- NEMOs also agreed on MNA RfC general approach that will be applied in assessment of the RfCs related to Multi NEMO Areas (MNAs), so the equal treatment of all NEMOs is maintained.
- NEMOs are also discussing prioritisation process of other RfCs, to ensure equal process for all NEMOs.

SIGNIFICANT UPDATES IN INTRADAY OPERATION

- NEMOs and TSOs still continue the discussion on the mitigation and Corrective Measures, which shall be applied in case the SIDC system performance degrades. NEMOs have agreed on regular reporting of Order Transactions (OTs) and trades on NEMO level.
- NEMO Committee is continuing its consultations with external legal specialists, who shall perform additional legal and economic analysis of the SIDC Corrective Measures.
- NEMOs and the ID Service Provider are also continuing the discussion on future development and other performance improvements as well as recent incidents.

EXTERNAL COMMUNICATION

- NEMO Committee was represented in the CACM PCG meeting (22nd September) and also prepared position for MESC and MESC Strategic WS, taking place in October 2026.
- NEMO Committee hosted its **4th Annual Conference** on 29th September in Brussels. The Conference highlighted major milestones in market integration, including the successful implementation of the Single Day-Ahead Coupling (SDAC) 15-minute Market Time Unit (MTU) which celebrated its 1st anniversary, ongoing enhancements of the Single Intraday Coupling (SIDC), and the evolving regulatory framework needed to support an increasingly integrated, flexible and decarbonised European power system. The event gathered key representatives from across Europe, fostering a constructive dialogue on the continued development of efficient, transparent and integrated electricity markets as well as summarised key findings in the CACM Annual report.
