1. Introduction

This procedure describes the sub-process of sharing the results after the calculation is finished.

1.1. Summary

The purpose of this procedure is to describe how the results are shared among the Operational NEMOs. The PMB Coordinator has the results after the calculation is finished. The Coordinator PMB will distribute the results [REDACTED]. All PMBs provide the results to their own Local NEMO IT system/s. In case of the shadow calculation, these results should also be sent to their own IT system/s.

1.2. Governed / Regulated by

-All NEMO Day Ahead Operational Agreement

[REDACTED]

1.3. Associated Procedures

- In normal situation:

- ANDOA_NOR_04: Calculation Process. This process must have been successfully completed.
- ANDOA_NOR_06: Preliminary Confirmation of the Results. When ANDOA_NOR_05 has passed successfully, the system automatically proceeds to the next step: Preliminary Confirmation of the Result.

- **In backup situation:** as soon as an event happens that prevents the normal performance of the ANDOA_NOR_05 process, the PMB operators refer to ANDOA_BUP_05.

2. Procedure

2.1. Preconditions to start

The precondition to start this process is the successful completion of procedure *ANDOA_NOR_04: Calculation Process*, in which the calculation has successfully ended and the results are known.
